The main concern in a market class is meant. The judge must ask if the animal is ready for market. Rabbits are judged by running the hand over the animal to determine bone structure, muscle and fur. Does should have medium to long bodies. Bucks should be shorter in length and blockier.

### Comments

#### HINDQUARTERS

- 60% of meat is found in hind quarters
- Hard, solid flesh
- Wide, deep loin
- Smooth, well-filled out rump

#### BODY CAPACITY

- Rib spread begins at shoulder and body widens as it moves into loin
- Rib and hip bones should be close together to reduce lion weakness
- Broad, flat chest indicates good heart and lungs

#### FEET AND LEGS

- Small but strong
- Full pads of hair on hind feet

#### HEAD

- Broad head and rounded muzzle
- Straight ears moderate to short in length, carried erect and close together

#### TEETH, NAILS AND TAIL

- Malformed and broken teeth and nails disqualify rabbits
- Tail should be straight up from rump.
